ASSET GUIDE 1.2 JUNE, 2018

TABLE OF CONTENTS

INTRODUCTION	3
LOGO USAGE	4
FONT USAGE	11
DIVISION COLORS	13

PURPOSE OF THIS GUIDE

When people see the Precision brand, they see 100% commitment. To maintain that commitment we must bring the same level of quality to the brand itself. By keeping the integrity of logos, fonts, colors, and other elements, Precision will be unmistakable.

This guide was created to empower you as you download the assets and apply them into your day to day work-flow.

Please note that the Precision Pipeline division is used in most of the examples depicted throughout this guide. The usage rules apply to all divisions.

As with every company that stands the test of time, things change and the brand evolves. Precision is no different and this asset guide will morph and adapt as needed. Always keep up to date with the most current version of this guide.

WHERE DO I DOWNLOAD ASSETS & THIS GUIDE?

PRECISIONPIPELINELLC.COM/ASSETS

LOGO USAGE

APPROVED LOGO USAGE

PRIMARY LOGO VERSION FULL COLOR (BLACK MASTHEAD)

This is the primary version of the logo that applies to EVERY DIVISION. Its what's called the full color version and is used for application on a white background. You'll see this on Precision's white trucks, hard hats, letterhead etc... You'll be using this version the majority of the time.

PRIMARY LOGO VERSION FULL COLOR (WHITE MASTHEAD)

This is the primary version of the logo that applies to EVERY DIVISION. Its what's called the full color version and is used for application on a black background. You'll see this on Precision's equipment and other collateral pieces.

APPROVED ICON USAGE

THE GOOD AND BAD NEWS OF USING THE ICON

This icon is approved for limited use at this time by trained design professionals only.

As the brand becomes more identifiable in the industry, the icon assets may be available for download and company-wide use.

APPROVED LOGO USAGE

LOGO NEGATIVE SPACE REQUIREMENTS

When using the logo in context, there must be negative space around the logo that's equal to the height of the Masthead. This is known as "Breathing room" so the logo doesn't feel cramped and is clearly legible.

LOGO MINIMUM SCALE REQUIREMENTS

All division logos must never be displayed smaller than 1" wide. This diagram depicts what all the division logos look like at an actual scale of 1" wide.

APPROVED LOGO USAGE

SECONDARY LOGO VERSION (ONE COLOR)

This version of the division logos is only to be used when color printing is not an option.

Additionally there are circumstances when this is applied to equipment where the logo needs to be painted or displayed as more of an identifier. Examples being underground pumps.

NON-APPROVED LOGO USAGE

These examples depict the logos in nonapproved manners or environments. Usage of the logo in this manner represent the company and it's brand poorly, and will result in costly time and resources to remedy.

Do not squish, stretch, or change the proportions of logo's ratio

Never rotate the logo even a slight bit

Do not use the white masthead version of the logo on light backgrounds and inversely do not use the black masthead version on dark backgrounds

Do not directly overlay the logo over photos

Never change colors of the logo

Please refrain from using drop shadows on the logo

SUPPORTING LOGOS

All these logos must be used in conjunction with the primary Precision division logos, but will add a focus with their usage. The same rules on the previous page apply to these logos.

100% COMMITTED LOGO This logo is to be used in conjunction with Precision division logos, with an emphasis on safety.

NEXT GENERATION LOGO This wordmark logo is to be used in conjunction with Precision division logos, with an emphasis on the future (sales, technology, etc).

SOUND OFF LOGO This logo represents the Sound Off safety campaign. Please note It utilzes an industry standard safety red color vs. the Precision Fabrication red color.

TAKE 5 LOGO This logo represents the Take 5 safety campaign. Please note It utilzes an industry standard safety yellow color vs. the Precision Pipeline yellow color.

PRECISION COMPANIES

FONT USAGE

FONT USAGE

RB №3.1 is the official font for Precision Companies and all it's divisions. A licensing and compatibility agreement is in the works for company usage.

Please use the substitute fonts which are available on most desktop computers until further notice.
